Overdraft options for Customers with debit cards²	Discretionary Overdraft Service We offer Discretionary Overdraft with our small business checking accounts to determine how we authorize and pay ATM or one-time debit card transactions when you do not have enough money available in your account to cover the transaction. You may change your enrollment option at any time by visiting your local TD Bank store, or call us at 1-888-751-9000 . For more information about overdraft practices, see your Tips to Help Manage Your Business Account document.	
	Option A – (This is the default option on your account.) You are enrolled in Discretionary Overdraft	This means your account is setup to allow TD Bank to authorize and pay ATM or one-time debit card transactions even when you do not have enough money available in your account. Whether an overdraft will be paid is at our discretion, and we reserve the right not to pay. If you overdraw your available balance by more than \$50, we will charge you a \$35 overdraft fee each time we pay an overdraft, up to 5 overdraft fees per day.
	Option B – You are not enrolled in Discretionary Overdraft	This means your account is setup to decline any ATM or one-time debit card transactions that may overdraw your account. Since these transactions will be declined when you have insufficient available funds, you will not be charged the overdraft-paid fees for ATM or one-time debit card transactions. We may authorize and pay overdrafts for other transaction types.
