Who would use this guide?

You would use this guide if you perform transactions during the course of your daily business that offer More Rewards® loyalty rewards. The information covered in this guide is exclusive to More Rewards transactions.

More Rewards cards

You must sign up with More Rewards and then contact the TD merchant Solutions Help Desk in order to accept these cards from your customers.

To perform a More Rewards transaction, you must select the appropriate icon to ensure that it is processed correctly.

Financial Transactions

The terminal can perform the following transactions with a More Rewards card:

Transactions	Explanation
Purchase (credit, debit, cash)	This is a standard purchase transaction for credit cards, debit cards, or cash.
Purchase (phone or mail)	This is a purchase transaction performed via phone or mail orders.
Purchase (force post)	This is a purchase transaction performed under special circumstances.
Refund	This is a standard refund transaction.

- Depending on your terminal settings, you may be required to enter a supervisor ID and password to proceed with any transaction.
- If the customer's receipt has a signature line on it, the customer **must** sign it.
- Manual loyalty card number entry can be disabled to enhance your business' security. Please call the TD Merchant Solutions Help Desk to enable this.

Transaction flow

In any of the allowable More Rewards transactions, the steps are identical to your **Quick Start Guide** except you will be prompted to:

- swipe the More Rewards card, or
- manually enter the More Rewards account number, or
- skip adding More Rewards to the transaction.

Receipts

The only difference between a regular receipt and a More Rewards receipt is the **MORE REWARDS** label and masked account number. Otherwise, the receipts are identical.

More Rewards points

Customers can check their points balance at www.morerewards.ca.

Configuration

Transaction Upload

This is automatically performed during your terminal day close, but you can manually upload your More Rewards transactions to their server by following these steps.
